The Remains of Cardinal McCloskey Buried With Imposing Ceremonies To-day.

Fifty Thousand People Crowd the Cathedral to Pay Him Their Last Respects.

AT REST.

Cardinal McCloskey's Funeral.

By Telegraph to The Sentinel.

NEW YORK, Oct. 15.—The doors of the cathedral were opened at 8:45 and the waiting throng invited to enter. The streets for several squares in every direction were blocked with carriages and masses of people. The dead body of the cardinal had, during the night, been placed in a mahogany coffin and so placed that the head of the dead prelate was raised above the level of the coffin and was easily seen from below. The pews and aisles were crowded with people, and 50,000 persons gathered within the walls of the cathedral before ten o'clock. The Papal Zouaves marched down the centre aisle and took up a position about the catafalque. A moment later the doors of the sacristy were flung open and a long procession of priests and acolytes filed down the steps to seats directly in front of the high altar. The priests and boys, 200 in number, chanted the office of the dead.

The sermon was preached after mass. At the conclusion of the sermon the concluding rites, by the bestowal of the Episcopal absolutions, were performed and the body was then placed in its last resting place in the crypt under the high altar where it was placed beside the body of Archbishop Hughes. Archbishop Corrigan was the celebrant of pontifical mass, Monsignor Farley was assistant priest, Father Donnelly deacon and Fathers McDonnell, Kelly, Lavelle, Slattery and Mulhearn, of the Cathedral household, were masters of ceremonies. Reverends Charles Colton and Thomas J. McCloskey, served mass. Rev. Thomas J. McIlhenny and Fathers Aylward and McGrath acted as chaplains.

NEW YORK, Oct. 15.—The sermon at the funeral of Cardinal McCloskey, this morning, was preached by Archbishop Gibbons, of Baltimore.

GREY HAS ENTERED.

PARIS, Oct. 15.—President Grey has officially announced he will enter the coming contest for the presidency. CALCUTTA, October 14.—King Thebaw, of Burmah, has answered the communication sent by the chief Commissioner for British Burmah in accordance with instructions from the Indian government, with reference to the dispute between the Burmese government and Bombay and the Burmah trading association, in an arrogant and insulting manner and has refused to discuss the claim of the trading company, with the Indian government. The chief commissioner has asked for reinforcements to the number of 8,000 men, before sending an ultimatum to Mandalay, the capital of Burmah.

A dispatch from Rangoon, the capital of British Burmah, says that the Burmese government is increasing its forces on the frontier and actually preparing to resist any attempt the government of India may make to force a suspension of the recent decree of confiscation of the property of the Bombay and Burmah trading company, in default of the payment of a judgment for \$1,250,000 alleged to be due Burmese foresters as wages. The company deny that they ever were in debt to the men, and claim that they never were allowed an opportunity of rebutting the charge. A majority of the men have signed a declaration that they have no claim on the corporation.

St. PETERSBURG, October 14.—A dispatch received from Constantinople, supplied from the Russian embassy there says, the Sultan has ordered ex-Sultan Monrad into exile.

LONDON, October 14.—The foreign office has received a telegram saying that Austria is preparing to dispatch

Railroad News.

By Telegraph to The Sentinel.

CLEVELAND, Ohio, October 14.—Tomorrow William Clements will succeed Charles Payne as general superintendent of the New York, Pennsylvania & Ohio railroad. For about eight years he has been master of transportation of the Baltimore and Ohio railroad. This suggests a promotion for Superintendent Payne. The official notice has not yet been received but he will be appointed vice-president of the Erie road and assume his duties within a few days. Under the Jewett regime had three vice presidents. It has recently had but two and now but one who had charge of the traffic and E. S. Bowen, who has acted as master of transportation. Mr. Bowen, on account of ill health, has not actively discharged his duties since early in the summer and as quite recently his health has not improved, he has resigned. Mr. Haine will be his successor and have charge of the transportation. A meeting of the board of directors of the Cleveland, Columbus, Cincinnati & Indianapolis railroad was held to-day. Chauncey A. Depew was elected a member of the board in the place of James H. Rutter, deceased.

National Capitol.

By Telegraph to The Sentinel.

WASHINGTON, D. C. October 14.—The act of congress providing for the taking of the semi-decennial census, in the states and territories, authorized the secretary of the interior to pay half of the cost of the census, where the returns were filed with the department before September 1st. Under the terms of that act, the territory of Dakota and the state of Colorado took censuses and presented their accounts, amounting to \$33,806, in the case of Dakota and \$20,673 in the case of Colorado. Certificates for these amounts were made out by the interior department but upon presentation to the treasury they were cancelled for the reasons below given, by the first comptroller:

Hon. L. Q. C. Lamar, Secretary of the Interior: Sir—in explanation of the cancelled certificates of this office, in the accounts of the territory of Dakota and the state of Colorado for expenses of the semi-decennial census of 1885, transmitted to your department by the register of the treasury, I have to state that both the territory and the state are indebted to the United States on account of the direct tax of August 5th, 1861, in the sum of \$324,33 and \$2,138,844 respectively. In accordance with the decision of this office, in such cases of indebtedness, on account of direct taxes, it has been directed that a sum equal in amount to that due be withheld until further action in such cases has been taken. In the case of the territory of Dakota \$32,265 of the amount of \$35,506 certified to be due, has been directed to be paid and in the case of the state of Colorado, no amount has been directed to be paid, as the state indebtedness is in excess of the amount certified to be due.

QUARANTINING AGAINST SMALL-POX.

A circular approved by the president, in regard to the maintenance of quarantine inspections on the northern frontier of the United States, has been issued to the medical officers of the marine hospital service, customs officers and others concerned, by Surgeon-General Hamilton. Among the orders made are the following: "First, until further orders, all vessels arriving from ports in Canada, and all trains of cars and other vehicles crossing the border line must be examined by a medical inspection of the marine hospital service, before they will be allowed to enter the United States, unless provisions have been made by state or municipal quarantine laws or regulations for such examination; second, All persons arriving from Canada by railroad, or otherwise, must be examined by such medical inspector before they will be allowed to enter the United States unless provision has been made for such examination as aforesaid. All persons coming from infected districts not giving satisfactory evidence of protection against small-pox, will be prohibited from proceeding into the United States until after such period as the medical inspector, or other sanitary officer, duly authorized, may direct. Inspectors will vaccinate all unprotected persons who desire or are willing to submit to vaccination, free of charge. Any such person refusing to be vaccinated, shall be prevented from entering the United States.

Fair Counts Increase Democratic Legislators.

The Result in Hamilton County Still Remains in Doubt.

Foraker's Plurality Between 18,000 and 20,000—Legislature May be Democratic.

STILL COUNTING.

Democrats Gaining Legislators—Foraker's Plurality 18,000.

By Telegraph to The Sentinel.

CINCINNATI, Oct. 15.—There can be no absolute certainty about the result of Tuesday's election in Hamilton county until the official count has been made. The vote in two precincts of the Nineteenth ward, whose counting was not finished last night, has now been counted and the result on governor, with one country precinct missing, which in 1884 gave seventeen republican majority, stands thus: Hoadley, 33,667; Foraker, 33,362; Leonard, 1,020. Hoadley's plurality is 305. The returns are far from complete on the legislative ticket. The Times-Star estimates that the average vote on the republican members of the legislature exceeds Foraker's vote by 1,015. If that rate is maintained it would elect the republican delegation, except Robert Harlan.

Since the list of counties claimed by republicans for representatives was announced yesterday, there have been two changes, one in Hancock and the other in Knox county to the democrats. The vote in Knox is close. There is also doubt about the result in Williams county. The figures from the state, exclusive of Hamilton county, indicate a plurality of from 18,000 to 20,000 for Foraker.

THE REPUBLICANS WEAKEN.

COLUMBUS, O., Oct. 15.—The democratic and republican committees up to noon to-day had neither changed the base of their claims in regard to the legislature, with the exception that the republican committee concedes the election of Welch, (dem.) in the Athens district and think that Greiner (rep.) in the Perry district, if defeated at all, is only by a few votes.

The complexion of the Ohio legislature will depend upon the result in Hamilton county. The local election machinery is in the hands of the democrats, and both parties charge each other with attempts to "doctor" the returns. Considerable excitement prevails in Cincinnati over the election.

AN APPOINTMENT.

COLUMBUS, Ohio, Oct. 15.—Governor Hoadley to-day appointed Gen. John Beatty, of Columbus, a member of the board of state charities in place of Hon. Joseph Perkins, of Cleveland, deceased. The law required the appointment of a republican.

Board of Foreign Missions.

By Telegraph to The Sentinel.

BOSTON, October 14.—The second day session of the annual meeting of the American board of foreign missions, opened with a very large attendance. Rev. E. Halden read the report on the work of the home department and the Rev. N. Y. Clark, senior foreign secretary, read a review of the work of the past twenty-five years. Secretary Smith read a paper on "The Future Work of the American Board" and Dr. Strong one on "Missionary Literature at Home and Abroad."

Rev. Joseph Messina, of Japan, presented a letter addressed to the American board by the pastors of thirty-one native Congregational churches in Japan, thanking the board for their generous efforts in their behalf. General S. C. Armstrong, of Hamp-

ton, son of a former missionary at the Sandwich Islands, presented the salutation of the children of the missionaries and made a plea for the endowment of the home for missionaries' children at Auburndale.

A Greeting to Manning.

By Telegraph to The Sentinel.

PHILADELPHIA, October 14.—At the meeting of the executive committee of the American Iron and Steel association, held here to-day, for the purpose of considering the circular letter of Secretary Manning, in relation to the duties on imports, the following resolutions were unanimously adopted:

Resolved, That we approve the action that has been taken by the officers of this association in requesting, in response to the circular letter of the secretary of the treasury, information from the iron and steel manufacturers concerning the cost of production of the various articles of iron and steel, believing that such information could not fail to justify the present duties on these products.

Resolved, That we regard the present tariff which was enacted less than three years ago, after nearly two years of congressional agitation, as being, in the main, a wise law, although it contains some defects, which we would be glad to see corrected, if this could be done without opening the whole question of tariff revision.

Resolved, That we are opposed to any measure of tariff revision which contemplates any changes in the present tariff than the judicious substitution of specific for ad valorem duties, or the correction of such manifest errors as the low rate of tin plate, a rate which gives to England the monopoly of the manufacture of this indispensable article and permits no American citizen to engage in its production.

Resolved, That it is our sincere opinion that if a general revision of the tariff should be undertaken at the next session of Congress, the immediate effect would be to seriously check the welcome revival in business which has recently commenced in every part of the country and we appeal to Congress to promptly declare it hostile to any such project.

The Nailmakers.

By Telegraph to The Sentinel.

CINCINNATI, October 14.—The western nail association met here to-day and unanimously adopted the following:

WHEREAS, It is evident that the great question of equalizing between the east and west has become a question of vital interest and importance to western manufacturers.

Resolved, That we hereby reaffirm our determined purpose each and severally, that we will not operate our nail factories, except on the manufacturers' scale, regardless of what time it may require to secure the employment of our works.

Resolved, That we reaffirm our purpose to retain and continue all our present employees, who may become competent workmen and that we will not employ any other workmen, except those who will work with and on the same terms as our present employees.

The association adjourned till the regular monthly meeting in November at the Gibson house, this city. The following mills were represented: Jones & Langlin, Moorehead Bros. & Co., Chess, Cook & Co., Shoenberger & Co. and Pittsburg Riverside Iron company.

When he got through he had put five shots into Snyder's body and one through his clothes. The wounded man immediately started away but dropped dead in a lane near by. Jetton gave himself up and claims to have acted in self defense. Snider leaves a wife and three children.

Labor Troubles.

By Telegraph to The Sentinel.

for over a year, his suffering from Neuralgia was so great. Three doses of ATROPHOPHOS cured him.

Neuralgia, though one of the most common and most painful of diseases, has baffled all medical skill, and until the discovery of ATROPHOPHOS, it was almost incurable. ATROPHOPHOS, however, is a remedy which cures it. This statement, though strong, is warranted by the facts. Thousands have tested its value and pronounced it as the only remedy that brings relief. For instance, subject to neuralgia or nervous headache it is indispensable. ATROPHOPHOS cures no system, morphia, or other dangerous ingredient. It is absolutely harmless and universally successful in the prompt cure of this painful disease. Ask your druggist for ATROPHOPHOS. If you cannot get it of him we will send you a receipt of regular price, \$1.00 per bottle. We prefer that you buy it from our druggist, but if he has not it do not be persuaded to try something else, but order at once from us as directed. ATROPHOPHOS CO., 112 WALL ST., NEW YORK.

QUAINT MEXICAN CUSTOMS.

Commemorating the Last Scenes in the Life of Christ.

AN INTERESTING DESCRIPTION

Of the Land of Flowers and Guitars and Fandangos and Songs.

A DEVICE FOR POT HUNTERS.

CITY OF MEXICO, June 1885.—The amusements which in Mexico immediately succeed Lent began on *Vienes de Dolores* (Friday of Sorrows) with the annual flower festival. Business of most kinds is suspended during Holy Week, churches are draped in mourning, theatres are closed, and everybody gives himself up to commemorating the divine tragedy enacted in Syria more than eighteen centuries ago. The blessed palms of the preceding Sunday have been carefully hung in the balconies of the rich and the squalid huts of the poor, where they will remain throughout the year the *lures et penates* of the possessors. On Thursday the curious custom of washing the feet was observed, and in every church throughout the land the text of discourse was, *Padre, perdonanos, no sabes lo que hacemos* (Father, forgive them, they know not what they do), while in many suburban and interior villages, realistic melodramas were performed, mostly with living subjects, minutely representing the last scenes in the life of Christ. The more cosmopolitan citizens of the capital content themselves with comparatively little display under the present anti-Catholic regime, and in its streets are no longer seen the procession of the angels; the capture, trial, and condemnation of Christ; the descent from the cross, and not even a living Judas, as in the old days of Papal power, when hundreds of the faithful were will-

ing to personate the betrayer and do penance for their own sins by allowing the crowd to buffet them about and spit in their faces all day.

Good Friday is observed as a sort of May festival. This year, as usual, the *Paseo de las Flores* (Flower Promenade) was held along the *Viga*, the picturesque canal which stretches away between willows and poplars to the far-famed floating gardens of the ancient Aztecs. The scene along the historic causeway was astonishing to foreigners and as charmingly peculiar as it was typical of a poetic and pleasure-loving people.

They are early risers in this land of the sun, where breakfast is not taken till midday, and everybody is enjoying a long siesta during those hours when Americans are most actively at work. At sunrise the *Viga* and its boulevard were thronged with aristocracy of the city and a vast concourse of plebeians and Indians. By seven o'clock the festivities were at their height. For miles along the tree-lined avenue a constant procession of vehicles, horsemen, and pedestrians packed the space between green booths on either side, while the canal was crowded with canoes and Venetian-like gondolas. Everything imaginable on wheels was here—the stately closed carriage of the Mexican millionaire, open barouches, coupes, victorias, dog carts, wagonettes, even velocipedes and tricycles, while thousands of horsemen galloped gayly between. The severe simplicity of the German and English style of riding habit contrasted well with the gorgeously caparisoned, silver-decked equestrians. Most of the ladies were dressed in what we would consider full ball or opera costume—pale silks or satins, no wraps or covering for the head, except now and then a lace mantilla, draped Spanish fashion, upon the back hair, and a wealth of jewels such as the fair Mexicans are famous for.

Although the laws of propriety are so rigorously strict that a gentleman may not ride in the same carriage with the lady to whom he is betrothed, yet flirting is openly indulged in to an extent which would put to blush New York, Chicago, or San Francisco. Following a senorita up and down the promenade and staring intently in her face is an accepted mode of compliment here, doubtless gratifying to the young lady, but somewhat dangerous to the adorer if she happens to have others equally devoted; and it not frequently happens that duels are the result, she being preeminently the belle who can boast the greatest number of such encounters.

The canal was hidden by boats, big and little, the majority being long, clumsy, raft-like barges, each with a covered space in the middle, and a deck at both ends, and propelled by three or four Indians, who push their long poles against the canal bottom, singing as they go. Others were enclosed with an airy

with flowers and singing the happy occupants. Here everybody sings, for these happy-go-lucky children of nature are full of music. Their vocal with their meaningless folk songs, rendered in softest Castilian, or high-pitched patriotic hymns, which just now incorporate a great deal about the transcendent virtues of "Por-ri-o-Di-i-az."

The banks were lined with booths of green branches festooned with garlands, where loads of flowers, lemonade of various colors, china, a delightfully cool

But the great attraction along shore was the flowers offered for sale by Indian girls, whose deft brown fingers darted back and forth like shuttles as they fashioned bouquets with surprising rapidity. From earliest days Mexico has been noted for the beauty and diversity of its flora, and here were fragrant heaps of the choicest specimens. Wicker caskets lined with moss were filled with carnations, pansies, English violets, lilies, forget-me-nots, and the most magnificent roses—gorgeous basketfuls which in New York could not be purchased for less than \$23 were sold for one or two reals.

The festivities were kept up, though in diminishing scale, until late Sunday night. During all these days the shrill discordant rattle of ten thousand matras rose above the Babel of human voices. These little instruments of intricate torture are made of tin, iron, ivory, wood, even of gold and silver, and in all imaginable shapes. Some are in the form of humming birds, peacocks, birds of paradise, chickens, parrots; others are like gridirons, frying pans, musical instruments, fruits, flowers or reptiles. Everybody must have one, from the dignified grandparent to the baby in arms, and by twirling them rapidly a most unearthly, rasping, grinding sound is produced by wooden springs inside.

Already the sale of Judases had commenced, for on the following Sunday the strangest of all Mexican ceremonies took place, in the burning of the traitor. During all Holy Week men were continually perambulating the streets, holding high above the heads of the multitude long poles encircled by hoops, upon which were suspended the most gro-

color, shape and degree of deformity, and all with horns and crooked backs and twisted limbs. These are filled with fire crackers, the moustache or tail forming the fuse, and millions of them are annually exploded. Many are life-size, some having faces to represent politicians who are unpopular at the present time. Some are hung by the neck to wires stretched across the streets, or to the balconies of houses. Every horse car and railroad engine and donkey cart is decked with one, and even every mule driver has one or more tied upon his beast. At ten o'clock on Easter Sunday, when the cathedral bells peal forth in commemoration of Christ's resurrection, they are all touched off at once, and the air is filled with flying traitors everywhere over the length and breadth of Mexico.

One of the most delightful excursions which can be made anywhere in the world is up the *Viga*. A covered boat, with movable benches, awnings, and two Indians to propel it, can be hired for about \$3 per diem. It is best to make up a party of congenial spirits, if they can be found in this far-away country, to provide generous lunch baskets, and to start at the first peep of dawn, that there may be ample time for picnicking among the gardens at noonday and a glimpse of the evening festivities of Santa Anita.

Leaving the Garita de la *Viga*, an old Spanish water gate at which toll is taken from the market boats, before sunrise, one meets multitudes of canoes coming down to the city with overflowing cargoes of fruits, flowers or vegetables. The chalupas are each managed by a single native, who plies his long pole

handily, it is an Indian girl, and a very pretty picture she makes unconsciously among her market produce; or on a flat-boat piled high with fragrant alfalfa, or on a canoe laden with tobacco, or castor oil beans, or freshly gathered rushes, with which to decorate the doors of the pulque shops, or on a load of poppies and marigolds, with which to strew the floor of some church for a fiesta or a funeral.

Gliding along under the bending willows, the scene upon either side is surpassingly beautiful. The hills which environ the far-famed valley of Anahuac are still wrapped in their misty robes of night, but the first rays of the rising sun flush snow-crowned Popocatepetl, and the dead giantess, Ixtaccihuatl, stretched on her bier beside him. To the left rise those heights upon which the signal fires of the Aztecs were kindled during the early days of Spanish invasion, and a little further on is the Hill of the Star, where Montezuma's sanguinary priests sacrificed a female captive at the end of each cycle of fifty years to induce the sun's return, believing the world would end unless the gods were thus propitiated. The few houses in sight are generally of wild cane, thatched with Spanish-dagger leaves, with here and there a gray or pink-tinted adobe villa, with private water gates, apparently uninhabited for centuries—a most appropriate prowling place for spooks. Numerous old churches, most of them now in ruins, point crumbling towers toward heaven,

EXCURSION UP THE VIGA ON A CANAL BOAT, on both sides of the way, for in olden times the Catholic law-makers granted lands and privileges to those pious souls who erected these sanctuaries. The shallow salt marshes on the right are a literal hunter's paradise, being forever blackened with millions of wild duck, which winter and summer here. The lands not diked into gardens are kept submerged as a kind of fowl preserve, and are leased as hunting grounds. The Indians have a singular manner of committing wholesale slaughter among the innocents. Several hundred musket barrels are planted along in hollowed logs, so arranged that half of them point horizontally along the water to sweep the ducks there, while the rest are elevated at an angle of forty-five degrees to make those that rise. The guns are all touched off by fuses, and the execution is terrific.

Santa Anita, the first village on the *Viga* beyond the city of Mexico, is the great attraction on Sunday for natives and sightseers from the capital. There is always a fiesta at Santa Anita, and there the Indians are forever fundangoing, ballad singing, and pulque drinking. The first business of everybody on arriving at this village is to secure a wreath of poppies and corn flowers, with which the women crown their tangled hair and which the men wear upon their hats, even though but partially covered with sweat and dirty rags. Lovely wreaths sell for about six cents each, and the woman who is not thus crowned before the day is over is either deep in disgrace or dreadfully out of fashion. We are told that the most valuable gift which Montezuma presented to the Spanish ambassadors who visited his court was accompanied by a bouquet of rare flowers. The poorest village church has its floor strewn with flowers, and fresh bouquets are arranged upon the altars before service begins. The babe at its christening, the child at its confirmation, the bride at her wedding, and the corpse in its coffin are alike adorned.

JEALOUSY AT THE FANDANGO, AND SATISFACTION DEMANDED.

At the Indian village next above Santa Anita is a rare old church, built by Cortes in 1533, and still in daily use. It is well worth a visit. In the rear is a weed-grown graveyard, with a row of skulls grinning along the arms of its central cross, which is surrounded by the inevitable pile of human bones. In front of the church, facing the plaza with its fountain where the women collect with their water jars and gossip, are several blue painted adobe tombs. The vaults are mostly empty, except a few mouldy bits of coffin and grave clothes, but each is graced by the owner's skull and crossbones, placed carefully on top.

Nothing more picturesque can be imagined than the home-coming at evening down the *Viga*, the happy-hearted natives singing on shore and in their boats, fandango dancing to twanging guitars, the dusky gongoliers keeping time to the music with their paddles, the sleepy waters growling purple beneath the willows, and the soft twilight of this marvellous climate throwing a glamour over all.

FANNY B. WARD.

The *Lottery* is a game of chance, and a very pretty picture she makes unconsciously among her market produce; or on a flat-boat piled high with fragrant alfalfa, or on a canoe laden with tobacco, or castor oil beans, or freshly gathered rushes, with which to decorate the doors of the pulque shops, or on a load of poppies and marigolds, with which to strew the floor of some church for a fiesta or a funeral.

What is the Matter With Russia? The empire of Russia is a bad case of national dyspepsia. The treasury is short of funds and the army costs \$60,000 a day to feed. Then the army is so full of Nihilists that it can no more be trusted than the stomach of a man who has chronic dyspepsia. We don't know what to do with Russia; but a man with chronic dyspepsia, let him take Brown's Iron Bitters. That made Mr. Chandler, of Clinton, Iowa, a new man. He tried it after other remedies failed. Buy a bottle of your druggist to-day.

A QUEER DEATH.

Christian Bixler Killed While
En Route Home From
Fort Wayne—Dead All
Night by the
Roadside.

Christian Bixler, of Whitley county,
near the Allen county line, was employed
by Nicholas Cassady to assist him in
bringing a load of wheat and potatoes to
Fort Wayne. They landed the wheat
and potatoes safely in this city and the
cash was received for them. The two
men then did some trading and also
visited several saloons and remained in the
city till almost dark. On their way home
and just after crossing the Whitley
county line, the horses took fright at
something on the roadside and started.
The start was so sudden that both men
and the seat upon which they sat were
tumbled to the ground. The lines broke
and the horses ran on home, followed by
Mr. Cassady. On arriving at his resi-
dence Mr. Cassady unhitched his team
and put one horse in the stable and
mounting the other rode back to look for
Bixler. However a careful hunt failed
to find him, and the impression
upon Mr. Cassady's mind was that he
had gone to a neighbor's for the night.

The next morning Cassady went after
his wagon seat, when to his horror and
astonishment he found his friend Bixler
stone dead by the side of the road. The
coroner's verdict fully exonerates Mr.
Cassady from all blame. Bixler's neck
was dislocated and he was quite an old
man.

AN AWFUL CASUALTY.

Two Tons of Pattern Iron Drop
on Henry Gardner and J.
Schilling at the Mur-
ray Foundry.

In the Kerr Murray foundry a huge
derrick is used to swing heavy iron pat-
terns from the floor to the foundry truck
wagons. This morning two tons of iron
were lifted high in the air and like a
flash the fastenings snapped and down
dropped the iron in a heap. Henry
Gardner and J. Schilling were beneath
it and by swinging their forms back-
ward saved their skulls, but not their
limbs. Gardner's feet were crushed to a
jelly, while the bones of one of Schil-
ler's legs were shattered. The injured
men were taken to their homes in a car-
riage and will be incapacitated for work
for a long time. Drs. Schutt and Ros-
enthal are attending the men and will
endeavor to save their limbs from the
surgeon's knife.

ing \$23 and a Watch

Jacob Eversoll came here from Mur-
ray, Wells county, yesterday and pro-
ceeded to enjoy himself. He dropped
into the Palace theatre and meandered
into the "Green Room" where the va-
riety belles flitted about in abbreviated
garments. Mr. Eversoll danced the
maiden on his aged knee and opened a
few bottles. He dropped a \$5 bill and
this note Oren E. Bates, a one armed
fellow, picked and divided with a friend
as hush money. Bates hung around until
Eversoll lost \$23 and a watch. The
police arrested Bates and Captain Deihl
found the missing watch on his person.
Bates had a preliminary hearing this
morning and was held for trial. Once
before he was arrested for crooked
work and this time he is in a bad box.
He cross examined witnesses at police
court and is a vicious looking fellow.

With a Rush.

The advance sale of seats for the
Theodore Thomas concert, at the Prin-
cess rink, October 22, began at Wood-
worth's drug store at 8 o'clock this
morning. There was a rush for the first
seats, as The SENTINEL predicted, and
at 9 o'clock 230 tickets were sold and
reserved. At 2 o'clock the advance sale
reached 300 and the coupons continued
to go. The railroads all give excursion
rates to the great musical event and the
chances are that the immense rink will
be packed. Happily the powerful or-
chestra and the renowned songsters will
fill the house and make every seat and
spot in it available. The house can seat
nearly 2,000 people and the best seats
can still be had. This is to be the
musical event in the history of the city.

AMUSEMENTS.

The "Parlor Match."

Chas. H. Hoyt's concoction was pre-
sented at the Temple last night to a
pleasant audience. The creation intro-
duces a few good characters, the best
being E. L. Williams, the Old Hoss, a
tramp. He does not overdo the part
and amuses throughout the play. Miss
Yeaman has studied minstrelsy and the
facial contortions that make some people
laugh. She catches her audience in the
first act but wears out at length. C. M.
Lester, the book agent, is not phenom-
enal, nor will other members of the com-
pany set the woods afire. The farce,
however, amuses most people and will
have quite a run.

The coming attractions are the bicycle
experts at the Princess rink to-night.
Saturday night the Darlington Bros.,
Miss Jessie Fike and Miss Alma Willard,
of Kalamazoo, will do fancy skating at
the Princess. This is a benefit to the
Darlington Bros. The Seabrooke com-
pany present Nat Goodwin's famous
"Hobbies" at the Academy Saturday
night and Monday evening Annie Lewis
and the Dan Sully party play against
each other, the former at the Academy
and the latter at the Temple.

RETIREES FROM BUSINESS.
Mr. D. Nestel Steps Down From
Active Life—His Work.

Mr. D. Nestel, one of the most enter-
prising men in the city, and who has al-
ways been engaged in some business or
other for forty years past, now steps
down from active life. He has helped to
build up the city a great deal, particu-
larly the west end and Broadway is
a monument to his industry. He has
now exchanged for the Thompson place,
on South Broadway, a handsome piece of
property adjoining the city. A street
will pierce the place and be styled
"Henrietta" street in honor of Mesdames
Thompson and Nestel. This land with
an additional piece of woodland that can
be purchased from Thompson would
make a pretty park, and it is a pity that
Fort Wayne has not a driving park or
something to show visitors. In a few years
from now land will not be available at
least for the price it can be had for now.
The land can be had for from \$8,000 to
\$10,000 and with the gravel and sand
that abounds in the west side of it, it
would be invaluable to the city. It is
worth looking into.

Death of Mrs. Mary Hill.

This estimable and widely respected
lady, died at half past five yesterday
afternoon at the residence of her son
Charles L. Hill, No. 34 West Superior
street. Death was caused by a gradual
decay of the vital powers incident upon
extreme old age. Mr. Hill had lived
eighty six years. She has been a resi-
dent of Fort Wayne for nearly a quarter
of a century. Two sons, Charles L.
Hill, of this city, and Frank A. Hill, of
California, survive her. Mrs. H. V.
Swearingen was a grandchild. The fun-
eral will take place on Friday afternoon
at 2 o'clock from the residence of her
son. The interment will be at Linden-
wood.

Members of the R. R. Y. M. C. A. who
would like to join an evening class in
penmanship or arithmetic should see
Secretary D. F. More, or his assistant,
J. K. Lewis, at once. Prof. Frank
Whiteleather will teach penmanship.
This is an excellent opportunity for
young men who are desirous of improv-
ing themselves and being better fitted
for business life.

Judge Hench gave Dr. T. S. Virgil a
judgment for \$151.80 against William
Link.

Your medicine (Athlophoros) is be-
coming popular. I have several custo-
mers who have been very much benefi-
ted by it. One old man, 75 years old, had
been afflicted with rheumatism many
years. S. L. Zinser, Minonk, Ill.

Mrs. T. McDonald will give a mas-
querade party next Saturday in honor of her
friend Miss Lee James, daughter of Col.
James, of Memphis, Tenn.

The Voice of the People.

The people, as a whole never make
mistakes, and the unanimous voice of
praise which comes from those who have
used Hood's Sarsaparilla, fully justifies
the claims of the proprietors of this
great medicine. Indeed, these very
claims are based entirely on what the
people say Hood's Sarsaparilla has done.

Coroner's Notice.

Notice is hereby given, that on Sun-
day evening, October 4, 1885, at a fire
which took place on the fairgrounds near
the city of Fort Wayne, Indiana, burned
to death an unknown man. He was
supposed to be about thirty years old,
five feet nine inches tall and weight about
one hundred and fifty pounds.

JAMES M. DENNEN,
Coroner of Allen county.

Narrow Escape.

ROCHESTER, June 1, 1882. "Ten
Years ago I was attacked with the most
intense and deadly pains in my back and
—Kidneys.

"Extending to the end of my toes and
my brain!
"Which made me delirious!
"From agony!!!!
"It took three men to hold me on my
bed at times!

"The Doctors tried in vain to relieve
me, but to no purpose.
"Morphine and other opiates!
"Had no effect!
"After two months I was given up to
die!!!!

When my wife
heard a neighbor tell what Hop Bitters
had done for her, she at once got and
gave me some. The first dose eased my
brain and seemed to go hunting through
my system for the pain.

"The second dose eased me so much that I
slept two hours, something I had not done for
two months. Before I had used five bottles,
I was well and at work as hard as any man
could, for over three weeks; but I worked too
hard for my strength, and taking a hard cold,
I was taken with the most acute and painful
rheumatism all through my system that ever
was known.

"I called the doctors again, and after sev-
eral weeks they left me a cripple on crutches,
for life, as they said. I met a friend and told
him my case, and he said Hop Bitters had cured
him and would me. I pooled at him, but he
was so earnest I was induced to use them
again.

In less than four weeks I threw away my
crutches and went to work lightly and kept on
using the Bitters for five weeks, until I be-
came as well as any man living and have been
so for six years since.

It has also cured my wife, who had
been sick for years; and has kept her
and my children well and healthy with
from two to three bottles per year. There
is no need to besicak at all if these bitters
are used. J. J. BERR, Ex-supervisor.

"That poor invalid wife, sister, mother,
"Or daughter!!!!
"Can be made the picture of health!
"With a few bottles of Hop Bitters!
"Will you let them suffer!!!!"

Prescribe the Scindlers!!!!
If when you call for Hop Bitters the drug-
gist hands out anything but "Hop Bitters"
with a green cluster of Hops on white label,
shun that druggist as you would a viper; and
if he has taken your money for a bogus stuff,
indict him for the fraud and sue him for dam-
ages for the swindle, and we will reward you
liberally for the conviction.

Fifty Thousand People Crowd the Cathedral to Pay Him Their Last Respects.

AT REST.

Cardinal McCloskey's Funeral.

By Telegram to The Sentinel.

New York, Oct. 15.—The doors of the cathedral were opened at 8:45 and the waiting throng invited to enter. The streets for several squares in every direction were blocked with carriages and masses of people. The dead body of the cardinal had, during the night, been placed in a mahogany coffin and so placed that the head of the dead prelate was raised above the level of the coffin and was easily seen from below. The pews and aisles were crowded with people, and 50,000 persons gathered within the walls of the cathedral before ten o'clock. The Papal Zouaves marched down the centre aisle and took up a position about the catafalque. A moment later the doors of the sanctuary were flung open and a long procession of priests and acolytes filed down the steps to wait directly in front of the high altar. The priests and boys, 200 in number, chanted the office of the dead.

The sermon was preached after mass.

At the conclusion of the sermon the concluding rites, by the bestowal of the Episcopal absolution, were performed and the body was then placed in its last resting place in the crypt under the high altar where it was placed beside the body of Archbishop Hughes.

Archbishop Corrigan was the celebrant of pontifical mass, Monsignor Farley was assistant priest, Father Danelly deacon and Fathers McDonnell, Kelly, Lavelle, Slattery and Mulhearn, of the Cathedral household, were masters of ceremonies. Reverend Charles Colton and Thomas J. McCloskey, served mass. Rev. Thomas J. McElhenny and Fathers Aylward and McGrath acted as chaplains.

New York, Oct. 15.—The sermon at the funeral of Cardinal McCloskey, this morning, was preached by Archbishop Gibbons, of Baltimore.

GREY HAS ESTERD.

Paris, Oct. 15.—President Grey has officially announced he will enter the coming contest for the presidency.

Calcutta, October 14.—King Thebaw, of Burmah, has answered the communication sent by the chief Commissioner for British Burmah in accordance with instructions from the Indian government, with reference to the dispute between the Burmese government and Bombay and the Burmah trading association, in an arrogant and insulting manner and has refused to discuss the claim of the trading company, with the Indian government. The chief commissioner has asked for reinforcements to the number of 8,000 men, before sending an ultimatum to Mandalay, the capital of Burmah.

A dispatch from Rangoon, the capital of British Burmah, says that the Burmese government is increasing its forces on the frontier and actually preparing to resist any attempt the government of India may make to force a suspension of the recent decree of confiscation of the property of the Bombay and Burmah trading company, in default of the payment of a judgment for \$1,250,000 alleged to be due Burmese forwarders as wages. The company deny that they ever were in debt to the men, and claim that they never were allowed an opportunity of rebutting the charge. A majority of the men have signed a declaration that they have no claim on the corporation.

Railroad News.

CLEVELAND, Ohio, October 14. Tomorrow William C. Bennett will succeed Charles Payne as general superintendent of the New York, Pennsylvania & Ohio railroad. For about eight years he has been master of transportation of the Baltimore and Ohio railroad. This suggests a promotion for Superintendent Payne. The official notice has not yet been received but he will be appointed vice-president of the Erie road and assume his duties within a few days. Under the Jewett regime had three vice-presidents. It has recently had but two and now Bennett who had charge of the traffic and E. S. Bowen, who has acted as master of transportation. Mr. Bowen, on account of ill health, has not actively discharged his duties since early in the summer and as quite recently his health has not improved, he has resigned. Mr. Bennett will be his successor and have charge of the transportation.

A meeting of the board of directors of the Cleveland, Columbus, Cincinnati & Indianapolis railroad was held today. Chauncey A. Dewey was elected a member of the board in the place of James H. Butler, deceased.

WASHINGTON, D. C. October 14. The act of congress providing for the taking of the semi-decennial census, in the states and territories, authorized the secretary of the interior to prepare the returns were filed with the department before September 1st. Under the terms of that act, the territory of Dakota and the state of Colorado took census and presented their accounts, amounting to \$33,306, in the case of Dakota, and \$20,673 in the case of Colorado. Certificates for these amounts were made out by the interior department but upon presentation to the treasury they were cancelled for the reasons below given, by the first controller:

Sec. 1, p. 1, act, Secretary of the Interior.

Sir: In explanation of the cancelled certificates of this office, in the accounts of the territory of Dakota and the state of Colorado for expenses of the semi-decennial census of 1885, transmitted to your department by the register of the treasury, I have to state that both the territory and the state are indebted to the United States on account of the direct tax of August 5th, 1861, in the sum of \$324,33 and \$233,944 respectively. In accordance with the decision of this office, in such cases of indebtedness, on account of direct taxes, it has been directed that a sum equal in amount to that due be withheld until further action in such cases has been taken. In the case of the territory of Dakota \$32,265 of the amount of \$35,566 certified to be due, has been directed to be paid and in the case of the state of Colorado, no amount has been directed to be paid, as the state indebtedness is in excess of the amount certified to be due.

DELAID MAILS.

Advice received at the post-office department indicates a general washout of railroads in Georgia and an interruption of the mails through heavy rains. Florida and Cuban mails are delayed, but it is hoped that arrangements will be made to-day to get the mail through.

QUARANTINE AGAINST SMALL-POX.

A circular approved by the president, in regard to the maintenance of quarantine inspections on the northern frontier of the United States, has been issued to the medical officers of the marine hospital service, customs officers and others concerned, by Superintending Surgeon-General Hamilton. Among the orders made are the following: "First, until further orders, all vessels arriving from ports in Canada, and all trains of cars and other vehicles crossing the border line must be examined by a medical inspector of the marine hospital service, before they will be allowed to enter the United States, unless provisions have been made by state or municipal quarantine laws or regulations for such examination; second, all persons arriving from Canada by rail road, or otherwise, must be examined by such medical inspector before they will be allowed to enter the United States unless provision has been made for such examination as aforesaid. All persons coming from infected districts not giving satisfactory evidence of protection against small-pox, will be prohibited from proceeding into the United States until after such period as the medical inspector, or any sanitary officer, duly authorized, may direct. Inspectors will vaccinate all unprotected persons who desire or are willing to submit to vaccination, free of charge. Any such person refusing to be vaccinated, shall be prohibited from entering the United States."

NOTES.

The president this afternoon appointed Thomas R. Jernigan, of North Carolina, Consul of the United States at Osaka and Higo, Japan.

Fair Counts Increase Democratic Legislators.

The Result in Hamilton County Still Remains in Doubt.

Foraker's Plurality Between 18,000 and 20,000—Legislature May be Democratic.

STILL COUNTING.

Democrats Gaining Legislators—Foraker's Plurality 18,000.

By Telegram to The Sentinel.

CINCINNATI, Oct. 15.—There can be no absolute certainty about the result of Tuesday's election in Hamilton county until the official count has been made. The vote in two precincts of the Nineteenth ward, whose counting was not finished last night, has now been counted and the result on governor, with one country precinct missing, which in 1881 gave seventeen republican majority, stands thus: Headly, 33,667; Foraker, 33,362; Leonard, 1,021. Headly's plurality is 305. The returns are far from complete on the legislative ticket. The Times-Star estimates that the average vote on the republican members of the legislature exceeds Foraker's vote by 1,015. If that rate is maintained it would elect the republican delegation, except Robert Harlan.

Since the list of counties claimed by republicans for representatives was announced yesterday, there have been two changes, one in Hancock and the other in Knox county to the democrats. The vote in Knox is close. There is also doubt about the result in Williams county. The figures from the state, exclusive of Hamilton county, indicate a plurality of from 18,000 to 20,000 for Foraker.

THE REPUBLICANS WEAKEN.

COLUMBUS, O., Oct. 15.—The democratic and republican committees up to noon to-day had neither changed the base of their claims in regard to the legislature, with the exception that the republican committee conceded the election of Welch, (dem.) in the Athens district and think that Greener (rep.) in the Perry district, if defeated at all, is only by a few votes.

The completion of the Ohio legislature will depend upon the result in Hamilton county. The local election machinery is in the hands of the democrats, and both parties charge each other with attempts to "doctor" the returns. Considerable excitement prevails in Cincinnati over the election.

AN APPOINTMENT.

COLUMBUS, Ohio, Oct. 15.—Governor Headly today appointed Gen. John Beatty, of Columbus, a member of the board of state charities in place of Hon. Joseph Perkins, of Cleveland, deceased. The law required the appointment of a republican.

Board of Foreign Missions.

By Telegram to The Sentinel.

BOSTON, October 14.—The second day session of the annual meeting of the American board of foreign missions, opened with a very large attendance. Rev. E. Hall read the report on the work of the home department and the Rev. N. Y. Clark, senior foreign secretary, read a review of the work of the past twenty-five years. Secretary Smith read a paper on "The Future Work of the American Board" and Dr. Strong one on "Missionary Literature at Home and Abroad."

Rev. Joseph Messina, of Japan, presented a letter addressed to the American board by the pastors of thirty-one native Congregational churches in Japan, thanking the board for their generous efforts in their behalf.

General S. C. Armstrong, of Hamp-

ton, son of a former missionary at the Sandwich Islands, presented the salvation of the children of the missionaries and made a plea for the endowment of the home for missionaries' children at Auburndale.

A Greeting to Manning.

By Telegram to The Sentinel.

PHILADELPHIA, Oct. 14.—At the meeting of the executive committee of the American Iron and Steel association, held here to-day, for the purpose of considering the circular letter of Secretary Manning, in relation to the duties on imports, the following resolutions were unanimously adopted:

Resolved, That we approve the action that has been taken by the officers of this association in requesting, in response to the circular letter of the secretary of the treasury, information from the iron and steel manufacturers concerning the cost of production of the various articles of iron and steel, believing that such information could not fail to justify the present duties on these products.

Resolved, That we regard the present tariff which was enacted less than three years ago, after nearly two years of congressional agitation, as being, in the main, a wise law, although it contains some defects, which we would be glad to see corrected, if this could be done without opening the whole question of tariff revision.

Resolved, That we are opposed to any measure of tariff revision which contemplates any changes in the present tariff than the judicious substitution of specific for ad valorem duties, or the correction of such manifest errors as the low rate of tin plate, a rate which gives to England the monopoly of the manufacture of this indispensable article and permits no American citizen to engage in its production.

Resolved, That it is our sincere opinion that if a general revision of the tariff should be undertaken at the next session of Congress, the immediate effect would be to seriously check the welcome revival in business, which has recently commenced in every part of the country and we appeal to Congress to promptly declare it hostile to any such project.

The Nailmakers.

By Telegram to The Sentinel.

CINCINNATI, October 14.—The western nail association met here to-day and unanimously adopted the following:

WHEREAS, It is evident that the great question of equalizing between the east and west has become a question of vital interest and importance to western manufacturers;

Resolved, That we hereby reaffirm our determined purpose each and severally, that we will not operate our nail factories, except on the manufacturers' scale, regardless of what time it may require to secure the employment of our workmen.

Resolved, That we reaffirm our purpose to retain and continue all our present employees, who may become competent workmen and that we will not employ any other workmen, except those who will work with and on the same terms as our present employees.

The association adjourned till the regular monthly meeting in November at the Gilson house, this city. The following mills were represented: Jones & Langlin, Moorehead Bros & Co., Chase, Cook & Co., Shoenberger & Co. and Pittsburg Riverside Iron company.

This is to give notice that I, on the 13 of Oct., 1885, sold out my stock of dry goods, at No. 130 Broadway, to Mrs. Henrietta F. Thompson, who will carry on the dry goods business in the same place. I also herewith return thanks to all my friends who have so liberally patronized me during the time I have been in the business, and hope they will do equal towards my successor.

Snyder came to Jettin's farm, from his own adjoining, bringing with him a sheep belonging to Jettin, which had got with Snyder's. The old quarrel was resumed and Snyder finally struck at Jettin with a log chain. Jettin instantly whipped out a revolver and began shooting. When he got through he had put five shots into Snyder's body and one through his clothes. The wounded man immediately started away but dropped dead in a lane near by. Jettin gave himself up and claims to have acted in self defense. Snyder leaves a wife and three children.
